

ONTAP Security and Compliance Solutions Administration (NA- OCSA)

Course Description

In this course, you learn how to administer NetApp® ONTAP® 9 data management software integrated security and compliance features.

You learn how to create a secure IT environment according to Zero Trust principals such as “least privilege access” and “encrypt everything.” You also administer, configure, and manage the integrated data security and compliance features in ONTAP 9, which include data retention with SnapLock software and data integrity with autonomous ransomware protection.

Course Duration:

2 days.

Prerequisites:

- Clustered Data ONTAP Fundamentals
- Clustered Data ONTAP Administration

Hands-on experience with Data ONTAP (three to six months)

Objectives:

This course focuses on enabling you to do the following:

- Secure an ONTAP based storage system according to Zero Trust principles
- Apply least privilege access control to ONTAP administrators and users
- Secure data in flight
- Secure data at rest
- Enforce compliance with data privacy and retention regulations
- Secure access to data by NAS protocols
- Protect data from corruption by ransomware or malware

Who Should Attend

Customers and NetApp and partner employees.
